

# AVET BADALYAN

## SOFTWARE ENGINEER

I acquired fundamental Front-End Development knowledge through a bootcamp at Armenian Code Academy and courses at Microsoft IC Armenia. Then, at Cognaise LLC, I continued to improve my skills by working on a variety of tasks, including redesigning elements, debugging, and implementing new features. Alongside this, I worked on personal projects and freelancing. And now, with 2 years of hands-on experience, I'm excited to take on new challenges and contribute to innovative projects!
